

Ipad email VZ Server Settings REVISED 5-4 2013 iPad

SUGGEST YOU DELETE OLD VERIZON ACCT EMAILS THAT YOU REALLY DON'T WANT TO KEEP AT THE VERIZON SERVER.

DEACTIVATE OLD VERIZON ACCOUNT ON THE iPad  
ACTIVATE A NEW NAME VERIZON ACCOUNT ON YOUR iPad WITH ABOVE NEW PORTS THAT VZ IS REQUIRING .  
ANY EMAILS THAT ARE LEFT ON THE VZ SERVER WILL BE DOWNLOADED TO THE NEW VZ ACCOUNT ON THE iPad

I FOUND THIS WAY TO DELETE OLD EMAILS WORKS PERFECTLY A GREAT CONTRIBUTION BY A FELLOW VZ FORUM MEMBER

## Re: How delete over 20,000 old emails messages easily?

To delete all of your messages from your inbox, go to the settings tab, and then go down to "Number of messages per page" and set it to "No limit". Hit "Save" at the top and then hit OK when it asks you to refresh your browser. Then in your inbox, check the box that is to the left of "Sender" and hit delete. It will take a long time if you have that many messages, but it'll get done. Cheers!

THIS IS HOW MY Ipad is set up in the following area. The \*\*\*\*\* are your personal choices.
